www.velvetseaenvironmental.com

Velvet Sea Environmental LLC provides offshore environmental, hydrographic, and marine operations consulting in support of renewable energy, subsea cable, and marine infrastructure projects. Core services include offshore client representation, hydrographic survey coordination, GIS-driven route verification, QA/QC of deliverables, marine data analysis, and environmental compliance support across nearshore and offshore campaigns.

CORE COMPETENCIES

- Offshore Client Representative and owner's representative support
- Hydrographic survey coordination, QA/QC, and GIS-driven route verification
- Cable route clearance assurance, boulder relocation, PLGR, DTG/DTV, and as-left survey support
- Metocean buoy deployment, recovery, maintenance, and offshore coordination
- Marine data analysis, deliverables review, reporting workflows, and client assurance
- Environmental compliance support in BOEM- and NMFS-regulated offshore environments

REPRESENTATIVE EXPERIENCE

Prysmian / Dominion Wind: Nearshore cable repair and investigation campaigns, including multi-vessel support and cable pull-in operations.

Nexans / Equinor, Empire Wind 1: OCR support for export cable pre-lay construction, route clearance assurance, boulder relocation, PLGR, and as-left survey operations.

Empire Wind 1 Final MARMAC QA/QC: Onshore data client representation and final deliverables consultation/reporting support.

Equinor Metocean Buoy Project: OCR support for deployment, maintenance, and recovery campaigns.

National Grid / Next Geosolutions: Client representative for high-voltage DC cable route geophysical campaign.

DIFFERENTIATORS

- More than a decade of offshore energy and marine survey experience, including recent support on Dominion Virginia Offshore Wind and Empire Wind campaigns
- RECOA-certified Offshore Client Representative with direct subsea cable installation and interface-management training
- Proven field leadership in QA/QC, GIS route verification, stakeholder coordination, and real-time operational alignment
- International campaign experience across the North Sea, Baltic Sea, Bay of Biscay, Celtic Sea, Gulf of Mexico, North Atlantic, and Labrador Sea
